Investment Objective

The QV Canadian Balanced Fund provides investors with above average long term growth with low risk, through investment in a diversified mix of high quality Canadian common shares, preferred shares, income trusts and bonds.

Investor Profile

The Balanced Fund is suitable for investors having a low tolerance for volatility, a long-term horizon and a need for both steady short-term income and long-term capital appreciation.

Investment Strategy

The fund holds a mix of short term, high quality bonds, preferred shares and larger-cap common stocks to lower volatility in the portfolio and assure long-term growth. QV adjusts the mix of bonds and stocks to reflect the potential returns of the assets.
